

IRPULSE

The human body is a valuable energy source that has the power to renew itself. Our *IR Pulse* line of healthy textiles work with the body to ignite a natural recovery process. It is treated with far infrared particles that can radiate deep below the skin's surface and activate the body's electromagnetic waves. Our *IR Pulse* fabric could help encourage blood circulation and promote regenerative sleep.

- Far infrared irradiation temperature rise= 2.8 °C
- Far infrared emissivity= 0.88
- Strong penetration capacity that can reach 3 to 5cm below the skin
- Emits far infrared light from 4 to 14µm

Tested in accordance with the performance standard
GB/T 30127-2013

**Test results available upon request, please note that test results are provided by the treatment supplier and your results may vary*
